MANITOWOC COUNTY

LABOR MARKET TRENDS

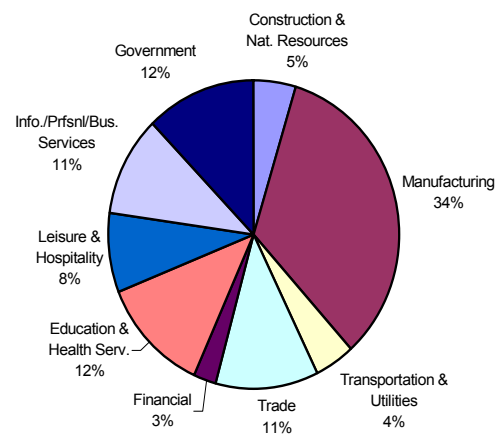

Manitowoc County...

like many of the counties in northeast Wisconsin has a higher percent of workers in the manufacturing industry than the state or nation. Over 34 percent of the workers are employed in this sector, compared to under 18 percent for the State of Wisconsin and less than 12 percent for the U. S. Manufacturing employment grew throughout most of the 1990's.. This has changed during the last several years, and employment has decreased with several plant closings.

About four out of five workers live and work in the county. Overall, nearly 4,700 more workers leave the county for employment than enter the county for work.

The primary destination for these workers is Sheboygan County, followed by Calumet and Brown Counties.

Employment by Industry in Manitowoc County: 2002

The annual average wage in 2002 for workers in the major industry sectors was: \$34,970 in manufacturing, \$30,960 in business and professional services, and \$30,181 in trade, transportation and utilities. The annual average wage for all employees was \$29,757. This was 91.8 percent of the average wage of \$32,422 for all workers in the state.
